

Paul Colombo

(917) 455-4171 • pcolombo@andrew.cmu.edu • [GitHubPortfolio](#)

EDUCATION

Carnegie Mellon University

Pittsburgh, PA

Class of 2028

School of Computer Science; Major: Computer Science

TECHNICAL SKILLS

Programming Languages (Java, Javascript, C/C++, SML, Jupiter, and Python)

- Multiple years of experience both formally and self taught

Experience with Web Technologies

- HTML, CSS, Javascript, Databases, React, BootStrap, Vite, and NodeJs

IT and Cybersecurity Tools

- Experience with cyber security utilities (Kali), Virtual Machines (Oracle VirtualBox)

Systems and Electronics

- CAD, Arduino, soldering, wiring, sensors (Gyro/Accelerometer & Lidar), Sensor fusion, and assembly

Other Skills

- LaTeX | Github | Gradle | JavaFX | Linux

RELEVANT COURSEWORK

Fall 2025: Robot Building Practices, Parallel and Sequential Algorithms, Probability Theory for Computer Scientists, Ethics and Policy Issues in Computing

Spring 2025: Concepts in Artificial Intelligence, Principles of Functional Programming, Great Ideas in Theoretical Computer Science, Vector Calculus for Computer Scientists

Fall 2024: Mathematical Foundations of Computer Science, Principles of Imperative Computation, Matrices and Linear Transformations

EXPERIENCE

Carnegie Mellon Racing (Data Acquisition Team)

Pittsburgh, PA

Fall 2025 - Work with sensors to collect data; aero, tire heat, speed, and more

CMU Artificial Intelligence

Pittsburgh, PA

Spring 2025 - implemented neural networks and trained reinforcement learning algorithms

MIT Lincoln Lab - Radar Introduction for Student Engineering (LLRISE)

Lexington, MA

July 2023 - Hands-on residential program consisting of 22 students at MIT Lincoln Lab

- Built, coded, and tested doppler and range radar

Program in Algorithmic and Combinatorial Thinking (PACT)

Online

July 2022 - Studied topics in Discrete Math with Rajiv Gandhi, professor at UPENN

- Focused on algorithmic thinking, proof techniques, and graph theory

AP Computer Science Principles Website

Cambridge, MA

Soph 2022 - Team of three students hand picked by computer science department

- Learned NodeJs, HTML, CSS, Javascript, and how to store grades in a database

- [Final product](#) is currently used by Cambridge Rindge and Latin to teach AP CSP

JOB EXPERIENCE

Computer Science Tutor

Remote

June 2025 Held weekly tutoring sessions on class material and final exam prep.

Liberty Automotive and Repair

Shelter Island, NY

August 2023-25 Trained by professional mechanics to repair a wide variety of cars and trucks including classic, luxury, and work vehicles. The work ranged from brake jobs to engine work.

Sylvester Manor Educational Farm

Shelter Island, NY

Summer 2022 Worked 10+ hour days (waking up at 5am) harvesting crops, planting crops, fixing tools, clearing out wasp nests, and catching groundhogs.
